Automotive SPiCE PAM 3.0 available

2015-11-21 17:12

New: SPiCE 1-2-1 for Automotive PAM 3.0 Tool in English & German

In addition to the well known SPiCE 1-2-1 for Automotive - which supports PAM 2.5 in English and German - there is a new tool available: SPiCE 1-2-1 for Automotive PAM 3.0

This new edition includes the Process Assessment Model 3.0, which was released on July, 16th 2015. See www.automotivespice.com.

Beyond the usual assessment features, the assessor can now switch between English and German during the assessment.

Because of structural changes in the process dimension and amongst the generic practices - inspired from ISO 33020 - the assessment files with PAM 3.0 are not compatible with PAM 2.5 (oder 2.4, 2.3) files. Therefore we offer two separate tools: one for PAM 3.0, the other for PAM 2.5.

The Quest Tool Version 3.2.0 is available for all Quest Tools released on Nov. 20th, 2015!

All our available assessment tools (SPiCE, CMMI and others) have been updated to reflect the latest version of the assessment core framework which now incorporates features like advanced practices, pre-selected processes and highlighted practices and selection of multiple questionnaires (if provided) and

works fine with Win 10, both 32 and 64 bit edition.
