## SPiCE 1-2-1 for Automotive

Current Version:

Version 3.3.28

Release Date:

Nov. 5<sup>th</sup>, 2022

Without registration code, SPICE 1-2-1 automatically starts in demo mode. In demo mode you cannot store your assessment ratings.

If you purchase SPICE 1-2-1, you will receive an activation code which enables you to switch the demo version to a full version. For the activation to proceed, you need an Internet connection. After activation, the tool operates also without Internet connection.

Because of structural changes in the process dimension and amongst the generic practices - inspired from ISO 33020 - the assessment files with PAM 3.1/3.0 are not compatible with PAM 2.5 (oder 2.4, 2.3) files. Therefore we offer two separate tools: one for **PAM 3.x**, the other for **PAM 2.5**.

**SPiCE 1-2-1 for Automotive PAM 3.1 inc. HWE 2.0 & MEC 1.8 & CyberSecurity 1.0 & Organization SPiCE 1.0**

### **Supported Operating Systems:**

Windows 10, 11

### **.NET 4.5 Redistributable:**

The software is based upon the Microsoft .NET Framework 4.5. Setup checks whether the Framework is already installed - which is the case since Windows 8.
