SPiCE 1-2-1 for Automotive PAM 4.0 now with Agile and Potential Analysis

2026-01-11 14:32

V3.3.33 available now!

ASPiCE PAM 4.0 and Assessment Software Update V3.3.33

Updated: SPiCE 1-2-1 for Automotive PAM 4.0

Additionally to the PAM 4.0 - which includes also process groups for hardware engineering, validation, and machine learning - the new assessment tool includes the following PAMs

- MEC Mechanical Engineering 2.0
- SEC Automotive SPiCE für CyberSecurity 1.0
- ORG Organization SPiCE 4.0
- AGL Agile SPiCE 1.4.1

And: also the rules from guidelines 2.0 are included!

All PAMs are provided in English and German (switchable).

The new PAM uses a different capability dimension. Therefore the new PAM is available in a separate tool, which can be installed and operated in parallel to the existing PAM 3.1 tool.

New: SPiCE 1-2-1 for Automotive *Potential Analysis* PAM 1.0

In parallel to the existing assessment tool for PAM 4.0, there is now a separate tool available for performing the AutomotiveSPiCE Potential Analysis!

The new tool contains all thirteen processes defined in the PAM, the new RYG-rating scale and supports the same reporting mechanisms (Word/Powerpoint/Excel) as the PAM 4.0 tool.

The tool uses a different file format for storage than the PAM 4.0 version.

For a complete list of all changes please refer to the changelog.
