Welcome to SPICE 1-2-1 for Automotive!

SPiCE 1-2-1

for Automotive

<u>S</u>oftware <u>P</u>rocess <u>I</u>mprovement &
<u>C</u>apability d<u>E</u>termination

now including Hardware
Engineering,
Validation, and Machine Learning
and Mechanical Engineering MEC
2.0
and Cybersecurity SEC 1.0
and Organization SPiCE 3.0

The Vision:

The quality of systems & software development processes can be measured, improved and thus be managed!

The Mission statement:

"If you don't know your current position, then even a compass won't help."
So: first perform an assessment and second think about the necessary changes!

The Mission:

SPiCE 1-2-1 is the tool to understand and put into reality the essential parts of AutomotiveSPiCE.

The "process map" for systems and software development becomes comprehensive...
